

THE ANTIBACTERIAL POOL

Up to 99% reduction of bacterial loading on the Biodesign structural coating FOREVER

LA PISCINA ANTIBATTERICA

Riduce del 99% la carica batterica del rivestimento Biodesign PER SEMPRE

LA PISCINE ANTIBACTÉRIENNE

Jusqu'à 99% de réduction de la charge bactérienne sur le revêtement Biodesign DEFINITIVEMENT

LA PISCINA ANTIBACTERIANA

Reduce la carga bacteriana del 99% en el rivestimiento Biodesign POR SIEMPRE

DER ANTIBAKTERIELLE POOL

Er reduziert die Bakterienmenge auf der Biodesignstruktur um 99% FÜR IMMER

INHIBITS THE GROWTH OF BACTERIA UP TO 99,6%

The technology used, based on silver ions, blocks the metabolism of bacteria such as Escherichia Coli and Staphylococcus Aureus

INIBISCE LA CRESCITA DEI BATTERI FINO AL 99,6%

La tecnologia utilizzata, basata su ioni d'argento, blocca il metabolismo di batteri come Escherichia Coli e Staphylococcus Aureus

INHIBE LA CROISSANCE DES BACTÉRIES JUSQU'À 99,6%

La technologie utilisée, basée sur des ions argent, bloque le métabolisme de bactéries telles que Escherichia Coli et Staphylococcus Aureus

INHIBE EL CRECIMIENTO DE BACTERIAS HASTA EL 99,6%

La tecnología utilizada, basada en iones de plata, bloquea el metabolismo de bacterias como Escherichia Coli y Staphylococcus Aureus

REDUZIERT DAS WACHSTUM VON BAKTERIEN BIS ZU 99,6%

Die verwendete Technologie, welche auf Silberionen basiert, blockiert den Stoffwechsel von Bakterien wie Escherichia Coli und Staphylococcus Aureus

PERMANENT PROTECTION Integrated in the resin

The Microban® protection, together with regular finishing resin, provides a continuous action against the growth of bacteria as reported in the official test report

PROTEZIONE PERMANENTE Integrata nella resina

La protezione Microban®, insieme alla resinatura di consolidamento, fornisce un'azione continua contro la crescita dei batteri, come riportato nel test-report ufficiale

PROTECTION PERMANENTE Intégrée dans la résine

La protection Microban®, associée à la résine de finition, permet une action continue contre le développement de bactéries, comme indiqué dans le rapport d'essais officiel

PROTECCIÓN PERMANENTE Integrado en la resina

La protección Microban®, junto con la resina de consolidación, proporciona una acción continua contra el crecimiento de bacterias, como documentado en el informe de prueba oficial

DAUERHAFTER SCHUTZ Im Harz integriert

Der Microban® Schutz bietet, wie im offiziellen Testbericht beschrieben, mit der finalen Harzbeschichtung eine kontinuierliche Aktion gegen das Wachstum von Bakterien

GUARANTED QUALITY by Microban[®]

Microban® is the world's leading company in the use of antimicrobial technology applied to numerous sectors and products also for domestic environments

GARANZIA DI QUALITÀ by Microban®

Microban® è la società leader a livello mondiale nell'uso della tecnologia antimicrobica applicata a numerosi settori e prodotti anche per ambienti domestici

GARANTIE DE QUALITÈ by Microban®

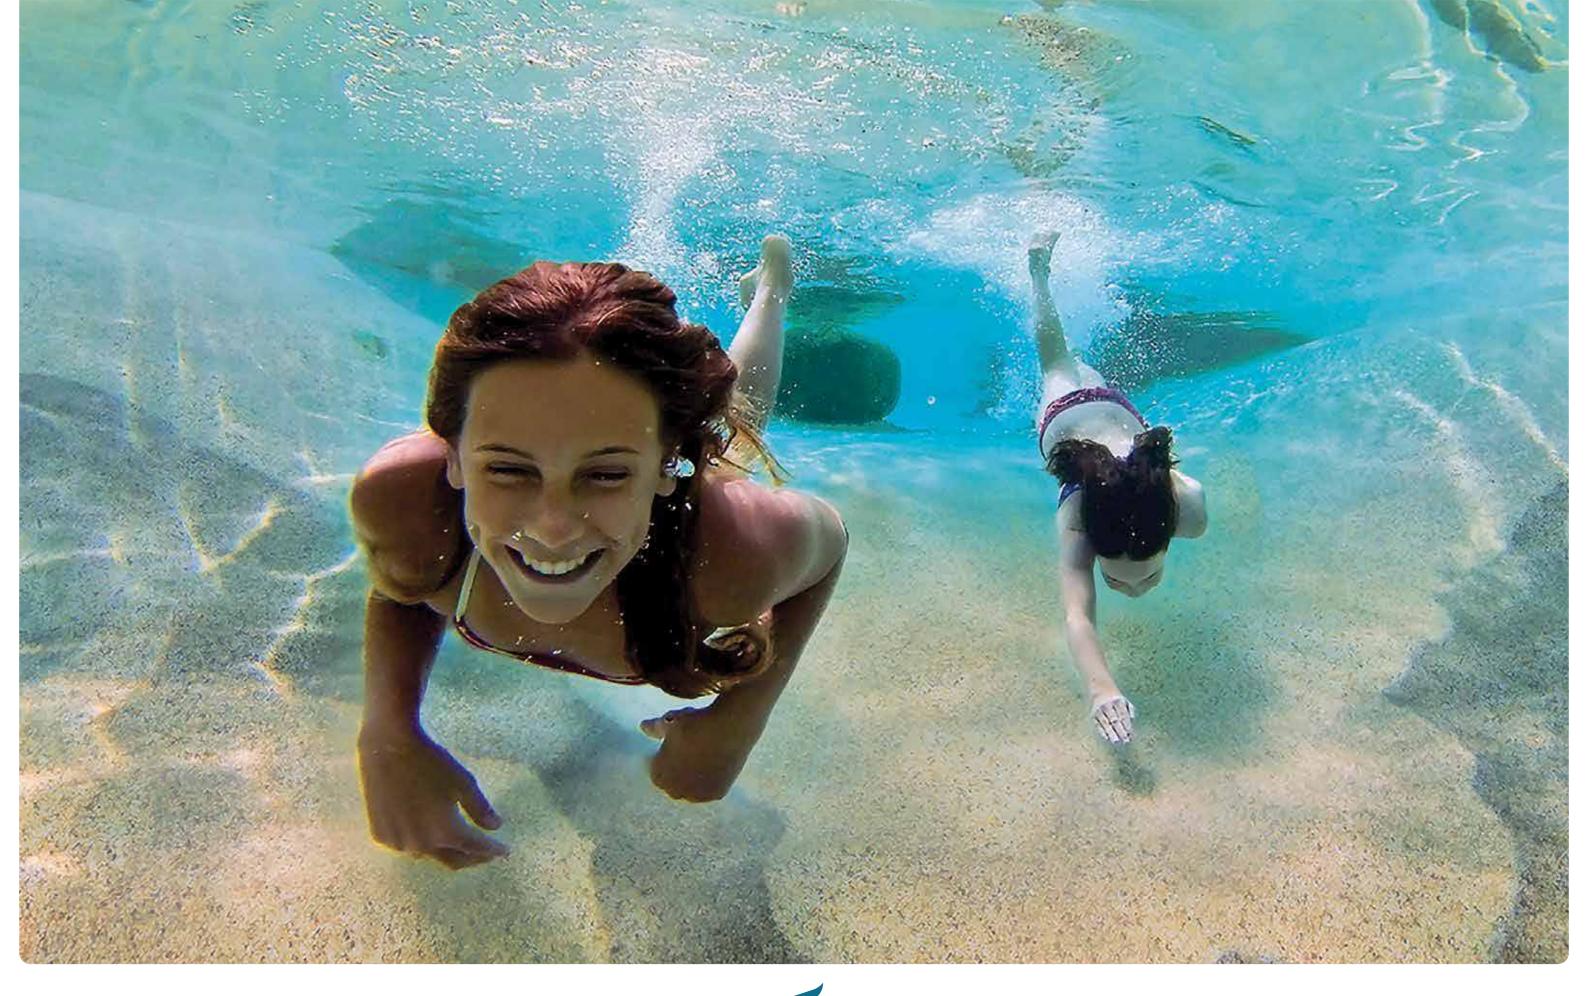

Microban® est le leader mondial de l'utilisation de la technologie antimicrobienne appliquée à de nombreux secteurs et produits, même dans les environnements domestiques

GARANTÍA DE CALIDAD por Microban®

Microban® es el líder mundial en el uso de tecnología antimicrobiana aplicada a numerosos sectores y productos, incluso para entornos domésticos

GARANTIERTE QUALITÄT von Microban®

Microban® ist das weltweit führende Unternehmen in der Verwendung von antimikrobieller Technologie in zahlreichen Bereichen und Produkten, die auch für die häusliche Umgebung vorgesehen sind
